Customer Support

What are DesktopMates?
DesktopMates are animated human like characters that live on your desktop as your personal interactive companion & assistant capable of speech & doing tasks for you using Microsoft® Agent & Artificial Intelligence Technologies. All versions of Windows 2000, Me, XP and Vista already comes with the core components for MSAgent Technology as part of your windows operating system.
More about this technology and it's capabilities ...

Getting Started!
IMPORTANT: DesktopMates characters ARE NOT stand alone programs that function by themselves. If you are a "New User" and not already using this technology, please go to the "New User Start Up Instructions Page" by clicking the "Free Starter Package Box" below and get up and running first before purchasing any DesktopMates characters. The New User Start Up software and components required to operate DesktopMates characters are fully functional and FREE!
