**Using a simple method discovered by Marcus Santamaria,

easily...even if other courses have failed**

About Marcus Santamaria

My name is Marcus Santamaria. That's me with my family in the picture above. After I met and married my wife, Elena, we decided to move to Mexico to be near her family. But I didn't speak a word of Spanish! I needed to learn the language so that I could interact with her family and friends.

But I had another motivation.

Dear Soon-to-be-Spanish Speaker,

Would you like to speak Spanish that could impress a native speaker? Want the words to freely flow from your tongue instead of sounding like a slowed down, broken record because you're constantly grasping for the correct grammar in your head?

Enough! The "traditional" way of teaching Spanish doesn't work for most people - especially if you're not in grade school or college anymore.

Even if you've tried to learn a language before and failed, now you can learn "real-world" Spanish quickly and easily. I am a language teacher and after years of using methods that just don't cut it, I have finally developed a course, Synergy Spanish, that really works for the rest of us. (If you want to know my motivation, read the "about me" in the side panel.)

And here's the best part: all you need to do is learn 138 words - more about this later. It will work for you if:

- You've never spoken a word of Spanish
- After endless courses and months or even years of study, you still can't string together a sentence without a struggle.
