 The leading developers of animated characters for Microsoft Agent technologies since 1999, offering the largest selection and the most realistic MS Agent characters available, anywhere!

 Customer Support

**What are DesktopMates?**  
DesktopMates are animated human like characters that live on your desktop as your personal interactive companion & assistant capable of speech & doing tasks for you using Microsoft® Agent & Artificial Intelligence Technologies. All versions of Windows 2000, Me, XP and Vista already comes with the core components for MS Agent Technology as part of your windows operating system.  
[More about this technology and it's capabilities ...](#)

**Getting Started!**  
**IMPORTANT:** DesktopMates characters ARE NOT stand alone programs that function by themselves. If you are a "New User" and not already using this technology, please go to the "New User Start Up Instructions Page" by clicking the "**Free Starter Package Box**" below and get up and running first before purchasing any DesktopMates characters. The New User Start Up software and components required to operate DesktopMates characters are fully functional and FREE!
