SUCCESS STORIES
 M. William NC
 I recently lost my job and had a new one call me and offer me a position on New Years Eve. That weekend I did many things that affected my well being that I shouldn't have. In the morning I got word that I needed to apply for the job and my body really needed a good detox cleansing so I would be prepared for this new job! A good cleansing really helps clear the mind!! Well lets just say I am now employed with a great new job.
