**"Best Money Ever Spent"...**

Wow! That was the best money I've ever spent on instruction or equipment in my life. Awesome. The tactics were so simple but so effective. I watched in amazement for the entire time. Chris is the only instructor I've seen that has a real knowledge of street fighting. The many techniques also blew me away. They gave me the attributes I was missing and the moves nobody else could show me -- at such a reasonable price. If it had cost 500 dollars it would have still been a huge bargain. It was everything you claimed.

**A New Calm Confidence!**

This is a better investment than buying guns or knives to protect me with and it gives me a calm confidence to face any situation no matter what sick jerk I run into. I want to say thank you.
