

Who Else Wants Blackjack Success?

Let's get something straight. I play blackjack. My latest blackjack trip involved **chaufferer driven cars, free hotel rooms, free food and wine and high roller hospitality the whole way**. I choose to play as often or as little as I like. Typically in a casino, I prefer not to talk to the general gaming public. They think they know so much oh, how wrong they are.

Heard all this before? Maybe, maybe not. Had a casino pay your airfare and then wine and dine you lately? Maybe, maybe not. I have.

This is the real deal. Whether you want to believe it or not, you want to play blackjack like me. Otherwise you wouldn't be here. And since you are here, you probably also know about the many so-called 'winning' blackjack strategies that are on the internet today. You may have even bought some, signed on to some email list and then been bombarded with free \$10 vouchers for casinos you have never even heard of.

Were you impressed with what you found out there? I wasn't. It's rubbish. Just the same old 'strategy card' that simply doesn't work. In fact, **in some casinos, the casino staff are instructed to actually hand these strategy cards out to patrons**. Why? Because the casino knows that if you use these cards, you lose. It makes me sick and for you - it's time to wake up and smell the coffee.
