## Hockey Development Expert Reveals his **Secret Off-Ice Training System** to Creating Explosive Players with Incredible Stamina!

Dear Friend,

Too many players are spinning their tires with their training. They put in a ton of time at the gym, but they don't see the results they want on the ice. The truth is that most players aren't following a hockey-specific program, if they're following a program at all.

I've personally trained thousands of hockey players ranging from novices at the youth level to players competing at the professional level. Over the years, I've developed a comprehensive training system that combines innovative training methods and injury-prevention strategies to help players achieve their best seasons ever. For years these abnormal results were reserved for the players at my training facility, but now you can benefit from this PROVEN training system.

**Kevin Neeld**
